Hit-and-Run **Driver Strikes** Clinton Boy

A hit-and-run accident yester-day in Clinton dominated the weekend highway mishap picture in the Utics ares.

Fourteen-year-old Thomas Dressell, sen of Mr. and Mrs. Edward Dressel of Fountain St., Clinion, was injured shortly before 6 tast night when he was struck by a hit-and-run motorist near his bome.

Dr. Leon Zwilling said the boy received bruises and a deep cut of the right side of the face requiring four stitches, bruises of the right hip, and shock.

Thomas, his sister, Sharon, 13, and Sue Witse, 13, a neighbor, were returning from akating. They were walking south in the street on the left side of the highway. A car traveling in the direction apparently swerved around a car parked on the right side of the street striking the boy.

Chief Marlo D. Gilbert, Patrolman Milton Hughes and Deputy Sheriff Robert Ingalia were conducting the investigation last night. Sheron, the boy's sister, said it was a "bine" car which whisked along after strik-

was not considered serious.

Stephen Obraski, 29, of 14
Schuyler, is being treated by Dr.

Hannibal Paologal in Bl. Elizabeth Hospital for lacerations of the right ear, face, nose and mouth received early yesterday.

Did Godfrey Buzz Tower? New York — (P) — The Civil Aeronautics Administration said

today it is checking reports that Arthur Godfrey bussed the control tower at Teterboro Airport in his private plane.

A CAA spokesman said "the incident occurred after a takeoff" by the television star last

Thursday afternoon in his twin-

engine DC-3, and that the CAA check "still is going on." Neither the CAA spokesman nor Teterboro control tower crewmen would discuss details, but it was ireported Godfrey became miffed when ordered to take off on a runway he didn't

want to use: The New York Dally News said Godfrey then "bussed the tower. alayming the control men." The News said Godfrey "could loss his license as a result of the gesture—if it was a willful gesture." His plans reportedly sweeped toward the control tower below roof-level, then rose_just in time to clear the dower. Coming in close on a ground object is known

as buzzing. M. E. Phillips, of the CAA, said that there were no fixed or grescribed minimum distances which a plane must keep "except what is prescribed by good judg-

He said that something apparently happened that caused Godfrey to come closer to the tower than usual, but that there was no indications that this was de-
