MRS. WYTRWAL REELECTED ST. JOHNSVILLE TRUSTEE AT ANNUAL SCHOOL MEETING

ST. JOHNSVILLE—District school voters reelected Mrs. Gertrude Wytrwal as trustee for five years at the annual meeting last night in the school.

Mrs. Wytrwal received 62 votes to 41 for her opponent, Frank Christiane, a movement in favor of whom began to take shape less than 24 hours prior to the meeting. She will serve until July 1, 1954.

Mrs. Wytrwal, wife of Dr. Raymond Wytrwal, coroner, is past president of the board. She was nominated by C. Vincent Doherty while Mr. Christiane was placed before the meeting by Isaac Forster.

The 108 ballots cast represented a larger meeting than usual, reportedly due to the contest for trustee. After the results were made known, Mr. Christiane moved the election be unanimous.

The voters also approved the sale of two parcels of land on East Main street, part of land purchased for a new elementary school under construction, and a budget totaling \$17,084. Vote on the budget was 97 to 1. It compares with one of \$14,689 a year ago but represents no increase in taxation. The difference will be made up by increased state aid. The budget was read by Charles McCrone, clerk.

The board also was authorized to transfer \$14,000 from the reserve fund to the general fund to be used to purchase equipment for the new school.

The report of Alvin Berry, treasurer, was accepted. Former Mayor Harlin Devendorf was chosen chairman of the meeting and Mrs. Lillian Jeffers and Miss Ada Crouse acted as tellers.

INDIA PRINCE HAS OMELET AT 'ANTLERS'

ST. JOHNSVILLE—An Indian prince, his princess and their three children stopped off for luncheon Saturday noon at a Town of St. Johnsville restaurant.

Their orders were "omelets and tea." The prince and princess and their children had arrived in New York on the Queen Mary, and were met there by a Canadian government auto and chauffeur, and were being driven to Ottawa, where the prince is now attending a meeting of high commissioners of the British Empire.

They drove into the Antlers restaurant at West St. Johnsville and had their lunch. The princess was attired in colorful native costume while the prince and the children wore more conventional clothes.

Mrs. Katherine Zoller, proprietor of the Antlers, inquired how the Indian prince happened to choose her place of business and was told that it had been recommended to them in Albany.

The distinguished visitors lingered more than an hour, chatting pleasantly with other diners, although their conversation was limited, and the children appeared to have mastered our language better than their parents. There were two sons and a daughter.

Rotarians discuss lone traffic light in St. Johnsville. The timing of the village's lone traffic light, at the intersection of West Main and North and South Division streets, was the subject of discussion and action at a recent meeting of the local Rotary club.

It was decided to call the attention of the village board and request the contact of state officials who have jurisdiction over the traffic light on route 5, a state highway.

Rotarians feel that traffic through Main street would be expedited if the green light for longer and the time given Division street traffic shortened. By far the heavier traffic is on Main street.

It also was suggested that the amber be on for about 10 seconds instead of four seconds as at present. This would provide greater time for vehicles which had started through the intersection to clear it before other traffic had the "go" signal.

The Rotary club also made plans to hold its family picnic August 3 and President Paul Dahlan appointed Dick Schlup as chairman of the committee. Should it rain the outing will be held Aug. 10.

FULTONVILLE—A "disappointing" turnout of 27 voters decided to ask the State Department of Education for a survey preparatory to centralization when School District 4 of the Town of Glen and Fultonville met last night at the school.

The voters elected Willard Gifford as trustee for three years to succeed W. A. T. Cassidy, whose term expired and who was not a candidate. Mr. Cassidy received 19 votes to five for Ray Senek with one ballot void.

The voters also approved a budget totaling \$7,827 of which \$3,000 will be provided by state aid, \$6,000 through transportation and \$5,415 in bond, leaving \$13,415 to be raised by taxes at a rate of approximately \$18 per \$1,000 of valuation.

James Brookman was elected president of the board of trustees and Devere Crave, clerk. Henry Wemple and the Rev. Carl Lazzaro acted as tellers.

By a vote of 15 to 8 the voters agreed to continue to exchange students for certain classes with a quota. The action came on a motion by Charles Nettach and seconded by John Morford.

BROADALBIN—Leland Reed, immediate past president of the board of trustees of the central school district, was reelected to the board for a five-year term last night at the district annual meeting.

The 266 qualified voters present also approved a budget totaling \$173,944 which, although it was not brought out, reportedly means an increase in school taxes. DROUGHT DROPS MILK OUTPUT, AGENT SAYS

FONDA—The prolonged drought has had a falling effect on milk production of herds in the Montgomery County Dairy Herd Improvement Association, according to Harold Horwood, supervisor.

Experiencing the greatest decline in production ever recorded from one testing period to the next, the 24 dairies produced 123,000 pounds less in June than in May, not withstanding the fact that there were 28 less dry cows in June. The monthly average for the entire group was 1,023 pounds of milk and 24.3 pounds of butterfat per cow, including dry cows.

Highest producing dairy again was the registered Holstein herd of Leland E. Button and son, RD 3, Canajoharie. Mr. Button's 20 cows averaged 1,058 pounds of milk and 54.1 pounds of butterfat in May. David Persons herd of 27 registered Holsteins was second highest with an average of 1,484 pounds of milk and 51.8 pounds of fat per cow.

Top individual producer was the five year old registered Holstein in the David Persons herd. Fresh 60 days, she produced 87.4 pounds of milk testing 4.3% giving her 110 pounds of butterfat. Second highest was a nine year old registered Holstein in the herd of Clarence M. Johnston, Canajoharie. Fresh 102 days, she produced 87.2 pounds of milk testing 3.7% crediting her with 103 pounds of butterfat.

Although dried up pastures were the direct cause of the sharp decline in production there was one consolation, Horwood said. The lack of rain had enabled most herds to get excellent quality hay in their barns, which should be a stimulating factor for good production through the winter.
