The lodge room has always been throughout the state as one of the most beautiful rooms in this territory. As the new decorating is in effect harmony with the permanent members of Sanger Lodge is taking a justifiable pride in it.

## DECISION POSTPONED AT STEAM HEARING.

Public Service Commissioner Volz Heard Argument Last Tuesday in Utica.

As the result of a complaint filed with the Public Service Commission by Dr. E. G. Randall, representing the steam consumers, that the Waterville Gas and Electric Co. was about to discontinue the steam heating service, Commissioner Volz held a hearing in the matter last Tuesday afternoon in the Court House in Utica.

L. P. and H. L. Fuess represented the consumers, and L. F. Joerissen represented the company. Others present at the hearing were A. C. Salisbury, Allen P. Marsh, F. J. Casey, Mrs. L. M. Fields, J. P. White, G. F. Johnson, W. G. McLean, J. H. Walsh, Dr. H. C. York, Orrin Terry, E. S. Germond, E. G. Locke, F. C. Bufford and W. S. Bissell.

Mr. Fuess stated that the company in 1899 received a franchise from the village of Waterville to lay conduits and pipes in the streets for the purpose of supplying light, heat and power, and under this franchise the company laid steam pipes in the streets, and for nearly 20 years have supplied customers with steam for heating. He called on Orrin Terry, A. C. Salisbury and W. G. McLean to show that many of the steam users were absolutely dependent upon the steam furnished by the Electric Company and figures taken from the company's books were also submitted to show the estimated cost of operating the steam heating plant.

The point was made that reports covering the operation of the steam system were required to be filed with the Public Service Commission and that therefore the commission had jurisdiction over the maintenance of the service.

Mr. Joerissen took the stand that the commission had no jurisdiction over the operation of the steam heating system and also emphasized the point that by notifying the consumers last June of the proposed discontinuance of the service they had ample notice to install their own boilers or arrange with the company for a rental of the system.

The Commissioner listened to the arguments offered by both sides and announced that a decision would be rendered later.

## OBITUARY.

Peter Kellmurray.

On Tuesday afternoon at his home in Utica occurred the death of Peter Kellmurray, for many years a resident of Waterville. The suddenness of his death, which was caused by heart trouble, was a shock to his many friends.

Mr. Kellmurray was born at Franklin Springs 43 years ago. He later moved to Waterville, where 40 years ago he married the late Anna Cantlon. About 21 years ago he moved to Utica, where he has since made his home. For some time past he has been employed by the Utica Gas and Electric Co.

Surviving are two daughters, Mrs. Jas. Barrett and Rosanna Kellmurray, seven sons, James, William, Ward, Frank, Raymond and Joseph, all of Utica, and Lawrence of Ohio; three sisters, Mrs. Patrick O'Toole of Franklin Springs, Mrs. Margaret Hughes of Utica and Mrs. Thomas Welch of Waterville; also two brothers, Michael of Waterville and Bernard of Utica.

Mr. Kellmurray was a member of St. Agnes' Church and his funeral took place from there this morning. Burial was made in St. Agnes' Cemetery.

## Important Rural Education Meeting Tomorrow.

The Joint Committee of Twenty-one on Rural Schools will hold a meeting tomorrow (Saturday) in the New Century Auditorium in Utica. The meeting will begin at 10 a. m., standard time, and will last all day. At this meeting there will be eight counties of Central New York represented, as follows: Oneida, Madison, Montgomery, Fulton, Herkimer, Lewis, Otsego and Oswego. All residents of these counties interested in the rural school problem are invited to attend.

The following educators will attend this meeting: Dr. Julian E. Battorworth of Cornell University, Dr. Harlan Updegraff of the University of Pennsylvania, Dr. C. H. Judd of the University of Chicago, Dr. M. E. Haggerty of the University of Minnesota, Miss Kate Carney, supervisor of teachers' training, Teachers' College, New York; E. R. Eastman, Utica, editor of the Dairyman's League News; Prof. George A. Works, Cornell University, director of the staff. In view of the prominence of these speakers there is sure to be much to interest those who attend. It is particularly hoped that as many as possible from Waterville and the surrounding districts will be present.

In connection with the agitation which gave birth to this committee, farmers in all parts of the state are urging that the section of the school law providing for compulsory consolidation of rural districts be repealed. They are also asking for more state aid; taxes now run as high as \$65 per \$1,000 of assessed valuation in some districts. The common school district is now the unit of taxation. There seems to be a strong demand for a larger unit and more equal taxation.

## Movies.

Following a two-act comedy, Bert Lytell will take the leading part in "Right of Way," Saturday evening. Tuesday Vod-a-vil movies opens the program, followed by Constance Binney in "Such a Little Queen," changing Pollock's famous stage hit. Pictures of the S. S. Celtic, docking at Hoboken, were used as a background for one episode. The play deals with the fortunes of the queen of a petty kingdom somewhere in Europe, who, when her throne totters, flees to America, and after starving in royal dignity in a Harlem flat for a few months, goes to work heroically in a Wall Street office, where she meets a man who is a real prince, and loves her, but does not quite succeed in banishing her from her thoughts the young king to whom she was betrothed just on the eve of the revolution.

Thursday evening the 9th episode of "The Avenging Arrow," and Billie Burke in "Sadie Love." A few minutes after Sadie Love (Billie Burke) has been married to Count Luigi Palavicini, a handsome young Italian, she is called on the telephone by Jim Wakeley, with whom she at one time imagined herself violently in love. She impulsively invites him to come up and see her. In the meantime Countess de Mirabole, an excitable French woman, accuses her of stealing the heart of Luigi, who she claims is her "twin soul." This confirms Sadie's idea that she is still in love with Jim Wakeley and has made a mistake by marrying Luigi. However, she decides for the sake of convention that they must go on their honeymoon and plans a trip to Italy on the "Sant' Anna."

## Corn and Potatoes Benefited by Rains.

The weather the past week was generally warm and favorable for all outdoor work until near the end, when general rains occurred over nearly all parts of the state, according to the summary of weather and crop conditions for the week ending Sept. 20, sent out from the Ithaca office of the weather bureau. The rains were very beneficial to late corn and potatoes and improved pastures to a marked degree. Silo filling is about completed in most sections. Potato digging is well under way; there appears to be less blight than usual.

Fall seeding is progressing with the soil in good condition. The buckwheat harvest is under way; fair yields are reported. Apples, grapes, quinces and plums are being marketed. Light frosts were reported from some points in the northern part of the state.
